

Creating small data sets

Creating a dataset with `read.csv()`

```
HP_names <- read.csv(  
  text = "name,age  
Harry,11  
Ron,12  
Hermione,13", stringsAsFactors = FALSE  
)
```

Creating a dataset with `read.table()`

```
HP_names <- read.table(  
  text = "name age  
Harry 11  
Ron 12  
Hermione 13", head = TRUE  
)
```
